A BOOK FOR ALL OPPOSED TO SLAVE-

A BOOK FOR ALL OPPOSED TO SLAVERY-Published THIS DAY.
THE IMPENDING CRISIS OF THE SOUTH: HOW TO
MEET IT.
By HISTON ROWAN HELFER of North Carolina.
I vol. 12mo., 420 pages.
(Sold only by Agents)
This work has not been in the hands of editors a sufficient
time to give notices. We give one received yesterday.
From The Booton Daily Traveler.
"Of all the works that have followed from that revival of the
Anti-Slavery controvers which was caused by the events of
1854, this must be held as the most remarkable. It is as strong
an Anti-Slavery work as we have seen, and yet is from the pen
of a Southerner, who writes from large experience, a full mand,
and a benevolent spirit. He does not provies philanthropy
but proceeds after the matter-of-fact fashion of the cent omists. an Auti-Slavery work as we have seen, and vet Is from the pen of a Southerner, who writes from large experience, a full mand, and a benevolent spirit. He does not profess philarthropy, but proceeds after the matter of fact fashion of the cent omitse. In writing this book, he says, it has been no part of my purpose to cast unmerited opprobrium upon slaveholders, or to display any special friendliness or sympathy for the blacks. I have considered my subject more particularly with reference to the comong's aspects as regards the whites-hot with reference, except in a very slight degree, to its humanitarian or religious aspects. To the latter side of the question Northern writers have already done full and ampic justice. The genius of the North has also most ably and elequently discussed the subject in the fermi of mostle. Yanken wives have written the most most popular Auti-Slavery literature of the day. Against this I have nothing to say. It is all well enough for women to give the factions of Slavery: men should give the facts. Proceeding on the basis thus laid down. Mr. Helper shows that, economically and merally, Slavery is a curse to the South. He has brought torother an immense number of facts that aid to establish his positions, and from the judament based upon these facts no appeal can rationally be made. We can heartify commend his work to all classes of readers who would understand the subject to the discussion of which it is deveted."
